

**We believe your school website must be**

**streamlined**

**to deliver essential information only while**

**social media**

**reflects your school's truly dynamic nature to**

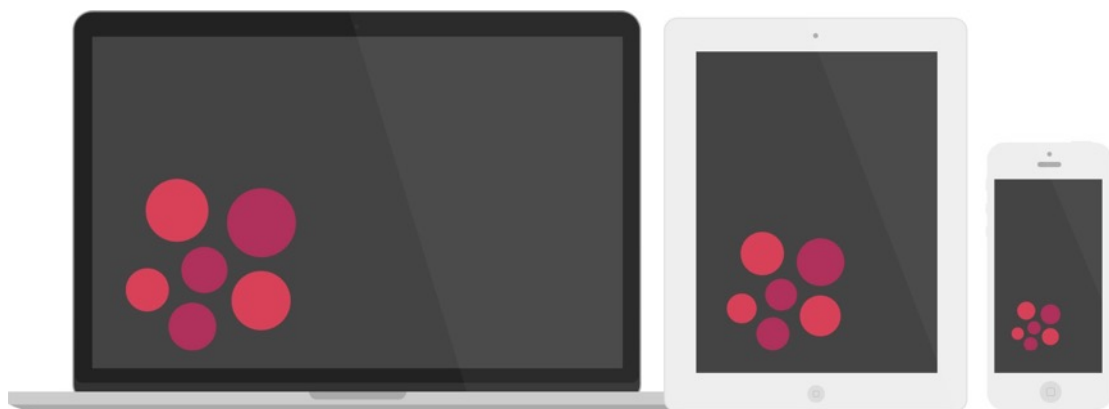

**engage parents**

**in ways that enable them to become invaluable**

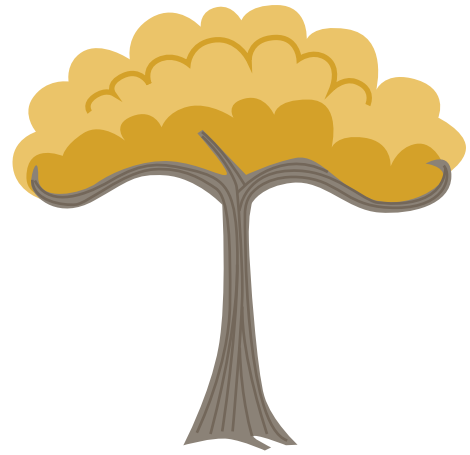

**school advocates**

**Naturally...**

**It must also look very good on any device.**

**There's no rule that says a school with a long history can't have a 21<sup>st</sup> Century look online just like a new build school or academy.**

**There's only one thing you need to do when your new website arrives and that's 'move in' with our launch training session.**

**We design, brand, host and migrate \*content into your new site and give you the training to enable you to update it during the year.**

**We host your website securely in the UK, back it up daily, support you and have an optional pay-as-you-go professional design service at your disposal too.**

**Quote requests to [support@blippit.co.uk](mailto:support@blippit.co.uk)**

**Thank you**
